Profile

Software Engineering graduate from WeThinkCode_, specialising in Data Engineering, with hands-on experience developing backend applications and fintech payment solutions.
Currently working at Mavuma Enterprise, contributing to **payment gateway development, API integrations, and secure financial systems. Proficient in Python, SQL, PHP, and relational databases**, with additional experience in technical mentoring, debugging, and collaborative software development. Passionate about building reliable software, exploring data-driven solutions, and continuously developing practical engineering skills.

Education

09/2024 – 12/2025
Johannesburg, South Africa

Diploma in Software Engineering (Data Engineering major)
*WeThinkCode_*

01/2023 – 06/2024
Free State, South Africa

N6 Human Resources Management
Maluti TVET College

Professional Experience

08/2026 – Present
Johannesburg

Payment Gateway Lead
Mavuma Enterprise PTY (LTD)

- Contribute to the development and maintenance of a fintech payment gateway supporting payment processing and partner integrations.
- Work with cross-functional stakeholders to troubleshoot technical issues and improve payment workflows.
- Support the implementation of secure and reliable payment features across the platform.

02/2026 – 07/2026
Johannesburg

Software Engineer Intern
Mavuma Enterprise PTY (LTD)

- Developed and maintained backend features for a fintech platform using PHP and REST APIs.
- Integrated payment gateway functionality and supported troubleshooting of payment-processing issues.
- Collaborated with the development team to improve application reliability and maintain secure financial workflows.

Volunteering

09/2025 – 01/2026
Johannesburg, WeThinkCode_

Technical Mentor
*WeThinkCode_*

- Providing one-on-one technical mentorship to software engineering students
- Assisting with debugging, algorithmic thinking, and understanding programming concepts
- Reviewing code and providing structured feedback to improve code quality

03/2025 – 12/2025
Johannesburg, South Africa

Workshop Coordinator
*WomenThinkCode, WeThinkCode_*
- Coordinated and facilitated technical and career development workshops
- Managed speakers, learning resources, and logistics
- Ensured workshops aligned with organizational and participant learning goals

05/2025 – 08/2025
Johannesburg, South Africa

Bootcamp Assistant
*WeThinkCode_*
- Assisted bootcamp participants with technical setup and coding exercises
- Supported learners with troubleshooting and understanding development workflows
- Collaborated with instructors to ensure smooth technical delivery of the bootcamp

Skills

Programming Languages:
Python, SQL, PHP, Java, TypeScript, JavaScript

Web & Backend:
Flask, REST APIs, HTML, CSS

Data & Databases:
PostgreSQL, MySQL, SQLite

Tools & Platforms:
Git, Docker, PowerBI, CI/CD pipelines

Languages

- English
- Sesotho
- Afrikaans

Certificates

- GenAI for Software Engineering - WeThinkCode_
- Microsoft AI Fluency - Microsoft
- AWS Educate Machine Learning Foundations - AWS Educate
- Python for Data Science - IBM

Projects

08/2025 – 09/2025

IntervAI
Interview preparation web application with voice and text input.
Tech: Python, Flask, sqlite3
- Provided real-time feedback to users to improve interview responses

03/2025 – 09/2025

BrainBloom (Group Project)
AI-assisted study and collaboration platform.
Tech: Python, Flask, SQL
- Contributed to backend development and feature implementation

Additional projects available on GitHub, data-driven web applications, and full-stack projects.
